Religion: Theories of origin of religion; Magic, religion and science; Totemism, myth and ritual; Sacred and profane, Rites of passage.

2. Bio-Physical and Archeological Anthropology

Meaning and scope of Biological Anthropology; Its relation to other disciplines
Human evolution and variation; Theories of evolution: Lamarckism, Neo-Lamarckism, Darwinism, Neo-Darwinism; Synthetic theory
Man’s place in the animal kingdom; Primates; Relationship between Humans and Apes; Fossil Evidence and the emergence of humans: Ardipithecus, Australopithecus, Pithecanthropus, Neanderthals, Cro-Magnon
Human Genetics and Inheritance; ABO Blood Group system, Rhesus Blood Group System
Human variation: Race and Racism; Racial classification: Caucasoid, mangaloid, and Negroid
Meaning and scope of Archaeological anthropology; its relation to other branches of knowledge; Pre-history, Protohistory, History
Major stages in prehistoric cultural evolution: Palaeolithic, Mesolithic and Neolithic; Methods of Dating and their relevance in Archaeology
Tools, artefacts, assemblages, site, and industries; Stone Tool Typology

3. Indian Society and Culture

Peasant Societies: definition and characteristics; Conceptual tools in the analysis of peasant societies, Social organization of tradition.
Indian village communities: Features, settlement pattern, solidarity; Jajmani system
Caste and class theories; Varna and Jati; Purity and Pollution; Concept of Dominant caste. Social Mobility; Fission and fusion
Processes of change: Industrialization, Urbanization, Sanskritisation, Westernisation and Modernisation
Folk-urban and Tribe-caste continuum; Great Tradition and Little Tradition; Universalisation and Parochialisation; Sacred Complex
Important Pioneers of Indian Anthropology: L. K Ananthakrishna Iyer, G.S. Ghurye, N.K. Bose, D.N. Majumdar, Verrier Elwin, M.N. Srinivas, A. Aiyappan, S.C. Dube, L.P. Vidyarthi

4. The Tribes of India

Concept and definition of tribe; The views of Redfield, E. M. Foster, Andre Beteille, Surajit Sinha; Distribution of tribes in India: Geographical. Linguistic classification.
Major tribes of India and Tribes of Kerala
Transformation of tribes; Theories of transformation: Verrier Elwin to K. S. Singh; Tribal movements.
Tribal Issues: Forest, Land Alienation, Indebtedness, Poverty, Illiteracy, Displacement;
Tribal development policies and programmes; National Tribal Policy

5. Research Methodology

Fieldwork tradition in Anthropology; Difference between Field research and Survey research
Inductive and Deductive research strategies; Emic and Etic Approaches
Basic techniques and methods of data collection and Analysis: Interview, Observation, Schedule, Questionnaire, Case Study and Extended Case Study Method, Genealogy, Controlled comparison, Content analysis, and Interpretation.

6. Theory of Culture

Basic Concepts: Culture, Culture Traits, Culture Complex, Culture Area, Age Area; Cultural Relativism
Theories of Cultural Evolution: Morgan, Tylor, Steward, White, Sahlins and Service.
Theories of Cultural Diffusion: Beals, Kroeber, Wissler
Malinowski and the theory of need and institution
Theories of social structure: Radcliffe Brown, Fortes, Nadel, Leach.
Social structure as a model: Levi-Strauss.
Raymond Firth on social structure and organization.
Cultural Materialism of Marvin Harris
Patterns of Culture. Ruth Benedict and Margaret Mead
National Character Studies: Mead, Linton, Kardiner

7. Development Anthropology

Concept of Development; Theories, Models and Approaches; Indices and Measures of Human Development; Human Development Index. Sustainable Human Development
Development Planning; Rural Development; Panchayati Raj; Land Reforms.
Tribal Development Administration; Concept of Scheduled Tribes; Scheduled area; Scheduled Caste; Backward classes and minority communities
Constitutional Safeguards for SCs and STs.
8. Ecological and medical Anthropology

Meaning and Scope and Theories of Ecological Anthropology; Environmental determinism and Possibilism; Cultural Materialism; Cultural Ecology; Human Ecology

Various modes of Adaptations in pre-industrial societies: Hunting-gathering, Fishing, Pastoral Nomadism, Shifting cultivation, Horticulture, Settled cultivation

Health, Culture and Society: Concepts of health and disease; Epidemiology.
Ethno medicine; Medical Pluralism in India

Application of Anthropological knowledge in promoting healthcare in tribal and rural communities.
